2019 CSforALL SCRIPT Symposium

📅 Monday, January 14, 2019 - Wednesday, January 16, 2019

📍 Scripps Institution of Oceanography - Scripps Seaside Forum 8610 Kennel Way, La Jolla, CA 92037 United States

The CSforALL team, in partnership with Dell and UC San Diego, welcomes you to the first national SCRIPT Symposium to expand rigorous, inclusive, and sustainable K-12 computer science education. The 2019 CSforALL SCRIPT Symposium includes a one-day facilitator training followed by a two-day SCRIPT workshop for school districts and local education agencies (LEAs), state and regional leadership, and partners from across the country. The facilitator training (invite only) will prepare individuals to use the SCRIPT to support the expansion of computer science in districts/LEAs in their state or region. The SCRIPT workshop will help teams develop computer science implementation plans with the guidance of trained facilitators from their respective communities. In addition to district/LEA teams, participants will include representatives from higher education, industry, out of school time organizations, curriculum providers, and others who can support the teams in their work.
