Ecomotion 2019

Monday, June 10, 2019 - Wednesday, June 12, 2019

Rokach Blvd 101 101 Rokach Boulevard, Tel Aviv-Yafo, Tel Aviv District Israel

EcoMotion is a dynamic community with over 600 start-ups (constantly growing) and 8,000 members in the Smart Transportation sector. Understanding startups do not grow in a void, EcoMotion bring's together entrepreneurs, academics, government officials, local & global automotive industry representatives, investors and much more; providing a support platform for knowledge-sharing, networking and collaboration. PlanetM is collaborating with EcoMotion to drive connections in the mobility industry during EcoMotion 2019. Those startups, investors, automakers and OEM's interested in meeting with startups in Tel Aviv during the week of June 10th should complete the information in the correct form intake to be considered for Speed Matchmaking Sessions. Israeli startups will be invited to complete their profiles on our Connect Space Platform, and then interested corporate partners will set their meeting schedules based on startup availability throughout the day. During our speed meeting Sessions, meeting attendees can expect to meet with 15 or more individuals and then follow up through our mobile application if those initial conversations were beneficial. For this event, we're enabling our local US automakers and investors to have access to the mobile application from the states to allow more opportunities for connecting with local Israeli Startups. **If you're interested in viewing the registered or attending startups, please complete the registration and follow the instructions for downloading and using the mobile application.** For any questions or concerns regarding the process or participation, please reach out to Bobby Chasnis (Chasnisr@michigan.org)
